Whereas HBX CORE is a proven innovative program that is designed to give students a basic general management toolkit and a solid understanding of the fundamentals of business, making it universally applicable to all students irrespective of their concentration or prospective field of work; and

Whereas HBX is different from the general EdX program as it features state-of-the-art multi-media and interactive teaching elements that are highly engaging and maximize your learning through collaboration with a cohort of peers; and

Whereas HBX is accessible to all students as it offers a comprehensive need based financial aid program; and

Whereas HBX's online courses can be taken along with summer internships, as it requires an average of around two hours a day of work; and

Whereas HBX encourages undergraduates to be an active part of this program and is very much in tune with President Faust's 'One Harvard' mission; therefore

Be it resolved that the Undergraduate Council continue to officially partner with HBX for mutual benefit; and

Be it further resolved that EdCom help expand HBX presence on campus by using its multiple channels of communication (House lists, etc.); and

Be it further resolved that EdCom once again organize an information session to connect HBX employees and alum with current students; and

Be it further resolved that EdCom potentially set up tabling for HBX employees in Annenberg during dining hours; and

Be it further resolved that the HBX-UC partnership for mutual benefit be valid for a period of 1 year, after which it is renewable based on the approval of both parties concerned; and

Be it further resolved that HBX continue to compensate the UC with \$3000 (Year 3) for their continued help with publicity and expansion of the program at Harvard College.
